To Whom It May Concern:

Please accept this letter as my highest recommendation for Central Florida Equipment Rentals, Inc. (CFE). I have had the opportunity to work with CFE over the past 20 years on a number of new construction projects totaling in excess of \$10M, most recently on the new world class Miami Science Museum project in downtown Miami where their scope of work included new water, sewer, & drainage pipe, soil remediation, gabion retaining walls, selective site demolition, and a new sewer lift station, all on a logistically challenging site.

CFE has consistently executed their work with professionalism and to the highest standards of quality. Whether self-performing or subcontracting their scope of work, CFE project management remains engaged, providing a professional, collaborative approach producing consistent, quality results and on time delivery in accordance with project schedules.

Additionally, CFE has always placed safety as a number one priority. CFE has shown their ability to collaborate as team players and a willingness to be flexible with on-site work issues.

I have personally enjoyed my relationship with Central Florida Equipment Rentals, Inc., and on behalf of Suffolk Construction Company, we look forward to continuing our relationship with them on future projects.

Sincerely,

SUFFOLK CONSTRUCTION COMPANY, INC.

Bob West
Project Executive
